4 — In his letter of 30.1.33 to the Secy, P.W.D., the Director of Health has stated that the sum required for the work in question may be met, by appropriation, from Water Supply Grants to Towns and Municipalities. No sum is available under the Water Supply Grant of Rs 25,000 & the idea is perhaps to meet the amount required out of the balance available under the Town Improvement Grant of Rs 40,000. In the G.O. of 31.1.33 a reserve of Rs 8,140 only was kept and the complete list of items may be met or not be met only the grant received from the Sanitary Engineer includes the sum of Rs 3622 required for Water Supply to the Sanatorium.

The estimate has to include the cost of the fillet transferred from Kuliakere and it would be not correct to omit it.

It is also not strictly correct to book the Expenditure under Grants for Public Improvements. It has to appear under the appropriate Head Civil Works Reappn. from one voted Grant to another being also not permissible the proper account procedure would be to ask the Director of Health to surrender this amount (in the) ~~Grant for~~ under Grants for Public Improvements And in consideration of this, to obtain an Extra Grant from the Legislative Council under Civil Works -

DEWA'S MINUTE.

Chief Secretary.

I was distressed to learn, when I visited the Tuberculosis Sanatorium yesterday, tht Malaria of a malignant type was prevalent in that Colony and that almost every patient had suffered or was sufferin from it. This is a really sad state of affairs. Ever effort should be made to eradicate the disease. Dr. Sweet ay be addressed and requested to visit the Sanatorium, an favour us with his suggestions for making it Malaria free.

The drainage of theSanatorium is very bad. This has also to be attended to erly.

The Senior Surgeon, Chief Engineer, Sanitary Engineer, may all meet some day, inspect the Sanatorium and draw up a programme of works that should be undertaken in the interests of the Institute in the order of urgency as funds become available.
